## Rev. Homer Caskey's First Trip Over His New Field

Some say it was "providential" that I got home just when I did last Thursday evening. Be that as it may I was very glad I came in time for the Young People's banquet that evening. Also just in time that the rapidly rising river did not prevent my crossing.

I started out from our home in Arrowwood May 14th to make a tour of some of the churches I am serving in this district. My first call was with the groups in the Irricana vicinity. Sunday morning the large church which is about eight miles west of Irricana was well filled. I noticed about two car loads of Arrowwood people in the audience (I have learned since that they do not have the reputation of being "church tramps"). That Sunday evening I was with the Second Church in town. I spent most of the following week with these groups, calling in their homes. They are quite optimistic in more ways than one. Their crop conditions seem to be very favorable this spring.

My next point for services was in the Merrington congregation near Kindersley, Sask. This was a long and rather lonesome trip as Mrs. Caskey had accompanied the Arrowwood folks to our home here. By making this trip in our own car I was privileged to make several stops along the way calling on folks who are members of the church but are now isolated. A travelling man in Kindersley told me that I must have kept about one hundred miles ahead of a hard rain. I thanked the Lord for that and we also thanked him for the heavy rain which came soon after I got there. The section of Saskatchewan I visited hasn't had the rainfall this spring like we have had here, yet the crop conditions are much more favorable than last year. The late rains have been appreciated and they are quite sure of a good crop.

In the audience at Kindersley there were members from the church in Milden, Sask. They liked the service so well that they stayed for the evening service. More than that they never went home until the pastor Rev. Baker and I promised we would pay them a visit which we did the following Tuesday. We had a splendid service in one of their large homes, about thirty being present. I enjoyed a real ball game with the boys before the service, which they in turn seemed to enjoy with us. Milden is about eighty five miles east of Kindersley. Seeding was almost done in that section and the spirit of the people most excellent.

From the Kindersley district I motored south about two hundred miles to Vidora, Sask. To me this trip was a real experience. In speaking of some of the desolate country that lays between the above named

(Continued on page 3)

## Sunday School Class Banquet

Church of the Brethren Young  
People Had Enjoyable Time  
Last Thursday Evening

As a result of a long, hard fought contest in the Young People's Department in the Church of the Brethren, an elaborate banquet was given by the losing side, the Blues in honor of the winning side, the Reds. Miss Evelyn Burriess was captain for the Blues and Miss Mildred Kauffman was captain for the Reds.

The losing side demonstrated the fact that they were not "blue" in spirit even though they lost in the race. Only by being present when the "treat" was given could one appreciate the splendid spirit and their generosity.

The large basement room in the church was beautifully decorated, blue and white being the color scheme. There was no small amount of labor in this part of the affair. Melvin Bowman was chairman of the decorating committee and demonstrated his artistic work. The tables were also beautifully decorated and so arranged that they surrounded a large display of blooming pot plants.

A bountiful three course dinner was served. The first course was fruit cocktail, second course, mashed potatoes, chicken, dressing, salad, peas, rolls, pickles, etc. Third course, apple pie and ice cream.

A well prepared program was rendered. Rev. Homer Caskey acted as toastmaster.

A vocal duet, "Hushabye Ma Baby" by Alberta Mason and Florence Norton was sung. Mrs. Hollenburg sang "When the Sun Goes Down." Miss Evelyn Burriess gave a very appropriate toast to the "Reds," also commended her group for their loyal efforts. Miss Mildred Kauffman responded with expressions of sympathy to the losers, in behalf of her group, also their hearty "thank-you" for their wonderful treat.

The male quartette (Paul Irwin, Melvin Bowman, Russel Burriess and Francis Mason) sang "Cornfield Medley."

Rev. J. S. Culp gave a short toast expressing his appreciation of the work the group are doing in the church.

Melvin Bowman played a piano solo. The class teacher Mr. Quinter Hollenburg, gave a few fitting remarks. He too appreciated the work of the class and urged them to continue the interest.

Miss Carol Chrestenson play-

## Regular Meeting of Town Council

The regular meeting of the Arrowwood Council was held on Thursday evening, June 2nd with all members present. The minutes of the previous meeting were read and on motion by Coun. Lewendon, were adopted as read.

A letter from the Alberta Assessment Commission was read confirming the set assessment for a three-year term for this village.

The Secretary was instructed to communicate with the owner of Lot 28, Block 2, Plan 1738, instructing him to clean up said lot forthwith, otherwise the Village will attend to it and charge same against taxes.

On motion of M. Leonard a grant of \$10.00 was voted to the Arrowwood School Fair Association.

Moved by Coun. Beagle that the side-walk on the east side of Centre Street be repaired.

The estimates for the current year are as follows:

Lights	\$756.00
Salaries	225.00
Legal	15.00
Roads	200.00
Rent	60.00
Insurance and bond	45.00
Old Age Pension	20.00
Office expenses	50.00
School tax and fuel	30.00
Cemetery	20.00
Supp. Rev. adjustment	55.00
Fire Dept.	20.00
For incidental expenses	300.00
	\$1,796.00

Moved by Coun. Lewendon and carried that the mill-rate for the Municipal tax be set at 14 mills and the Supp. Rev. be set at 3½ mills for the year 1932. A by-law to that effect was passed.

A by-law concerning the cancellation of certain tax-arrear penalties was also passed and the Secretary was instructed to place a copy of this by-law in the post office.

Eggs are said to be so cheap that practically anything can be made out of them—except a profit to the hens.—Market Examiner

ed a piano solo, "Melody of Love." Prizes were awarded to those who won the most points in the contest. For the Blues, Melvin Bowman received the prize, and for the Reds Miss Dorothy Vancil.

A few closing remarks by the toastmaster, prayer for the Young People of the community and the benediction closed a very profitable and enjoyable event.

## Set Regulations on Truck Traffic

Road Limit Not to Exceed  
28 Miles Per Hour

New regulations affecting all motor-truck drivers and owners in Alberta were received recently, at the local license bureau from the department of public works, Edmonton. They constitute an amendment to the Public Highways Act, 1929.

The new regulations, effective immediately, are:

1. No truck shall travel at more than 28 miles per hour on any Alberta road.

2. Maximum gross weight of any truck having two axles shall not exceed 24,000 pounds, and the minimum load to be carried on any one axle shall not exceed 16,000 pounds.

3. The gross weight of a truck and trailer, or semi-trailer, must not exceed 30,000 lbs., the load per axle remaining at 16,000 lbs.

4. The width of any truck must not exceed 96 inches, or 8 feet and the length of a truck or unit must not be more than 33 feet with trailer, and 50 feet for combination of truck and trailers.

5. No truck having a flange, rib, clamp or other device attached which will injure the road, shall be operated on Alberta highways without a special permit in accordance with special provisions.

If any vehicle or any other object or contrivance is operated or moved in contravention to these regulations, the report continues, the owner and persons operating them shall be liable upon summary conviction to a penalty of not more than \$50 and costs, and not less than \$10 and costs.

## Dance Revue at the School Friday Night

### PROGRAMME

Opening Chorus—Toymaker's Dream

The Rag Doll's Birthday Party

## Annual School Picnic to be Held Saturday, June 11

Arrangements are progressing for the annual Arrowwood School Picnic at the river on Saturday. As announced last week, those desiring to go are requested to gather at the school by 10 a.m. where transportation has been arranged. Mothers with children of pre-school age are cordially invited to bring them along and enjoy a day at the picnic grounds.

## Time Limit Extended on Wheat Bonus

The Canadian government will extend the date at which the 5-cent-a-bushel bonus for wheat expires from June 15th to June 30th.

## Annual Convention of U.F.W.A. to be Held June 24th

Mrs. Warr, the Provincial  
Pres., Will be Here

The annual convention of the U.F.W.A. of the Bow River constituency will be held in the Church of the Brethren, Arrowwood, on Friday, June 24th.

The convention opens at 10 a.m. with a musical program. A noon-day lunch will be served in the basement.

At the afternoon session Mrs. Warr (of Wetaskiwin, president of the U.F.W.A. for Alberta), Mrs. Buckley from Gleichen and other speakers will be present and give addresses.

All ladies are cordially invited to be present.

## Prizes for Essay on Holstein Cow's Merits

Alberta Holstein association is putting on an essay competition for the most informative and best essay on The Holstein Cow as an Economical Producer of Milk and Fat, and Why She Is the Best Farmer's Cow. The competition is open to any person in the province under 20 years of age.

There are three districts. No. 1 is south of the C.P.R. main line. No. 2 north of the main line to the Lacombe-Coronation line. No. 3 is all north of the Lacombe-Coronation line.

There are \$30 in prizes for each district and a grand prize of \$10.

Essays are not to exceed 500 words and to be judged on 80% for material and 20% for composition.

"I wish our bank could get on its feet enough to stop sending back our cheques marked 'No Funds,'" said the bride to her husband. "A bank that hasn't got enough money on hand to pay a \$4.27 cheque ought to be merged and put on a sound basis."

Business is like a wheelbarrow; it stands still unless someone pushes it.

## Bring Your Kiddies To The Sports

To Be Held In the Arrowwood School Grounds on

# June 18

A Big Program of Sports Has Been Arranged, Including

NORMAN G. CARY,  
Editor and Publisher.Depression and  
Education

Rather a pessimistic article appeared lately on the problem of young folk who have graduated from school but are unable to find employment. It raises again the whole question of the purpose of education.

There is a view that education is or should be an equipment to make a living, a training to enable one to earn money. Such training is given in technical schools and commercial colleges and the graduates are face to face with inability to use a rather expensive equipment. So, too, the technical trained from our universities. But such a view of the general high school training is incomplete if not erroneous.

Humanism is again on the grow. Advocates of the idea are pressing for the cultural values of education. Life is more than the possession of the necessities or even the luxuries of life. The so called practical has proven itself impractical. Such education makes for efficiency but it is the inhuman efficiency of the machine. It is for the perfecting of a process rather than the creative power to meet emergencies and make the most out of life.

To the best of our knowledge no college or university president has lamented the depression from the standpoint of the number of students. Rather it has played into their hands. If work had been plentiful our high schools and possibly the universities would not have been so well attended. We know of a last year's graduate of normal who could not find a school so went back to high school for Grade XII and also learned to play a musical instrument. If this is representative of the type turned out by our high schools we want more of them.

This period has hit all of us and we do wish we could sincerely say we thought the worst was over. But since it is here and we all have to endure it, is not the one with a historical background, a taste for literature and art and even a smattering of science better equipped to endure unemployment and make their way when others not so well equipped are unable? No! Parents have not wasted their money because their school trained children do not find immediate employment.

## UNUS SOLUS

Consideration of the proposed back to the land settlement scheme for destitute unemployed was undertaken by the provincial government and the mayors of the principal cities of the province at Edmonton last Tuesday.

## Health Service

OF THE  
Canadian Medical Association

Edited by

GRANT FLEMING, M.D. — ASSOCIATE SECRETARY

## Undulant Fever

Undulant Fever is a comparatively new disease. It is new only in the sense that it is now recognized for what it is. The inhabitants of the island of Malta suffered for years from a disease known as Malta fever this disease was thought to be limited to that island. It was discovered some year ago that this disease was spread by their regular milk supply which came from goats.

Contagious abortion is unfortunately far from being uncommon in the herds of Canada. The disease germ which causes contagious abortion is the same germ which, when it gains entrance into the human body causes undulant fever. There are several varieties of this germ, close relation as it were, one variety prefers to live in cows, another in goats, and still another in hogs. So it is that the germ responsible for a particular disease on the Island of Malta and which is spread by the milk from goats is much the same as the germ causing contagious abortion in animals in our country and responsible for undulant fever in man.

Undulant fever is contracted by man either through the use of raw milk from infected animals. By infected, we mean animals which have the germ in their bodies.

Since the disease was recognized in this country, a number of cases have been reported. The disease varies in its severity. There is fever, headache

loss of appetite, weakness and either constipation or diarrhoea. It may resemble typhoid fever. There are certain laboratory tests which may be made; these tests are of great assistance to the doctor in making his diagnosis.

In this, as in the consideration of other diseases, when we know the cause and how the disease is spread, we naturally ask how it may be prevented. The answer to the question can be definite.

The germ is in the milk. Pasteurization destroys the germ. Milk which is pasturized is safe—only milk which is pasturized is safe and if all milk used were pasturized it would prevent all the undulant fever which is now spread by milk.

Those who work with animals or handle meat should know that the disease may be contracted by contact with infected animals. The wearing of gloves, the prompt and proper attention given to breaks in the skin, the thorough washing of hands, are the measures of self-protection which such workers should use regularly in their own interests.

## Dandillon

I saw him peeping from my lawn,  
A tiny spot of yellow,  
His face was one substantial smile—  
The jolly little fellow.

I think he wore a doublet green  
His golden shirt tucked under  
He carried too a sword so sharp  
That I could only wonder.

"Are you a soldier, little man,  
You, with your face so sunny?  
The fellow answered not a word  
I thought it very funny.

I left him there to guard my car  
From robbins bent on plunder  
The soldier lad with doublet green,  
His yellow shirt tucked under.

The days passed on—one afternoon  
As I was out a-walking  
Whom should I meet upon the lawn  
But soldier lad a-stalking.

His head, alas! was white as snow,  
And it was all a tremble;  
Ah! scarce did this old veteran  
My bonny lad resemble.

I bent to speak with pitying word—  
Alas! for good intention;  
His snowy locks blew quite away  
The rest we will not mention.  
—Kate Louise Brown

Sometimes a pessimist is a man to whom an optometrist owes money.

## The Old and the New

The two models have been showing at the Chateau-de-Ramezay, Montreal, recently in an exhibition of a century of locomotives. Right, is the "Dorchester", operated in 1836 to 1850 on the Champlain and St. Lawrence Railroad between St. John's and La Prairie, Quebec, the first train to run in Canada. Left, is the 2300 type Canadian Pacific Railway locomotive, a model of the great machine that draws modern passenger trains across the Dominion.

Comparison of the two locomotives will bring home the immense development in the past 100 years. The four driving wheels of the "Dorchester" were 48 inches in height. The six driving wheels of the 2300 type locomotive are 75 inches in height. Engine and tender weight of the "Dorchester" was just over 10,000 lbs; of the 2300 it is 648,300 lbs. Tractive force of the "Dorchester" is not given, but it must have been

greatly less than the 45,000 lbs of the Canadian Pacific engine. Engine and tender of both locomotives had respectively eight wheels and twenty wheels. A further indication of the vast spread in operation values between the old and the new is seen in the figures of the latest and most powerful Canadian Pacific engine, the "8000" type, capable of pulling a freight train of 150 cars, or over a mile in length.

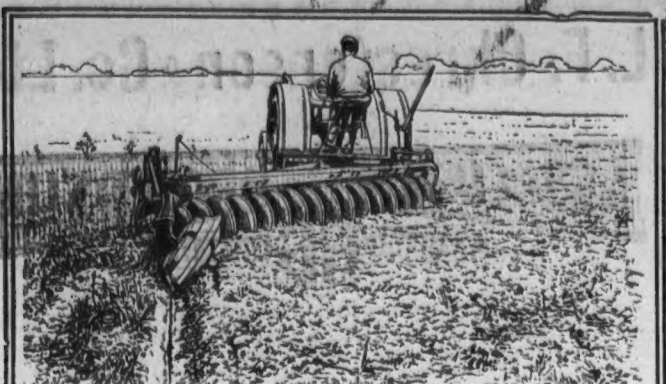

## Don't Forget--

We always appreciate receiving news items ---that is what makes a local Paper interesting.

Nature cannot jump from winter to summer without a spring, nor from summer to winter without a fall.

## Ready for Your Fields— —A New John Deere Disk Tiller with a Field Proved HEAVY-DUTY POWER LIFT

A new John Deere Disk Tiller is ready for your fields. Ready with all the field-proved features that made the old John Deere Tiller the choice of many farmers in this region—plus a heavy-duty power lift of the improved, long-lived John Deere type.

With this important improvement the John Deere Disk Tiller is as easy to handle as a tractor plow. Just a tug on the handy trip rope as you drive along sets the lift to work, raising the disks clear of the ground for turning, backing or transporting; another pull drops the disks to working position.

In addition to the time-saving, effort-reducing advantage of the John Deere heavy-duty power lift, you get the thorough work and great strength for which the John Deere Tiller has always been famous.

Stop in next time you are in town and get acquainted with the new John Deere Disk Tiller. We want to show you all of the features that mean satisfaction.

At this Store You Get **QUALITY AND SERVICE**

There is a reason for optimism, declares a noted publicist if we view the financial situation as a whole. The trouble is that most of us are viewing it without the "w."

Caller—"Wouldn't you walk as far as the street car with me?"  
Age Servant—"I can't."  
"Why not?"  
Because we're going to have supper as soon as you go."

## Rev. Homer Caskey's First Trip Over His New Field

(Continued from page 1)

points to one of my friends, also of the States, he told me that there was country in the States that was fully as bad. It may be true but I have never seen it. The thing that impressed me most was their generous people that live there. If I can be convinced that living in that kind of a country causes one to be generous, there is a lot of people in Iowa I am going to try and get into that kind of a country.

I found a very appreciative group in the Vidora community. The Church of the Brethren is the only church in town and they are held in high esteem. Their church house was filled each service. They are insisting so strongly for more such services that arrangements have been made for us to serve them in the near future. It was a long drive, over rough and muddy roads part of the way, but I made it to Arrowwood last Thursday, leaving Vidora about 9 o'clock a.m. I was glad to get to the Alberta line where a gravel road met me.

On my way home, at Maple Creek, Sask., I had the pleasure of meeting and eating lunch with the U. S. officers, Lieut. Wilfred Paul and his co-pilot Lieut. J. H. Bishop of the Scott Field, Ill., U. S. Army. They had just made a record flight with their Balloon ship. They seemed glad to meet me. We are all acquainted with several fellows in Omaha, where they had recently stopped.

On the whole the trip was an enjoyable one. Besides speaking in the many public services I called in sixty different homes driving 1,440 miles. Trusting that our personal contact will prove beneficial in the Kingdom work.

Homer Caskey  
District Superintendent  
Church of the Brethren

## Canada Sends S.O.S. for Insects

Canada wants more insects. She wants them so badly that a scientist is being sent post-haste to Central Europe by the federal department of agriculture and the Empire marketing board, with instructions to capture and send the insects back to Canada.

They are wanted to eat three of the Canadian farmers worst enemies—the balsam wooly aphid a forest insect called Diprion polytomum and the wheat-stem sawfly.

Recently the department wrote to the British parasite breeding laboratory, Farnham Royal, England, (the central insect parasite breeding and distributing centre for the Empire, whose director, Dr. W. R. Thompson, is a Canadian scientist) and asked their help in combating the present severe outbreak of the forest insect in the Gape Peinstla, Quebec. They also asked for assistance in fighting the plague of balsam wooly aphid which is causing serious injury to balsam fir in the maritime provinces. If this infection spreads throughout the eastern forests, enormous losses in pulp wood will result.

The wheat-stem-sawfly has been successfully tackled. Officers of the Farnham Royal laboratories collected parasites in France and bred them in England. Last season several large consignments of broken wheat straw, containing sawfly plus parasites, were packed in special boxes and shipped to Canada. These parasites were released in the wheat fields, and to date are doing well.

There were 447 moose and 9594 deer shot in New Brunswick last year, according to figures contained in the annual report of Chief Game Warden H. H. Ritchie to the provincial Minister of Lands and Forests. There was also a very successful partridge season with a bag of 44,469 birds.

Warmer weather and generally favorable conditions point to normal development of the western wheat crop, according to the report of the agricultural department of the Canadian Pacific Railway. Virtually all of Manitoba's seed is in and Saskatchewan and Alberta seeding will be completed by the end of the third week of May.

Two famous globe-trotters, Dr. Ray Chapman Andrews, noted anthropologist, and Bob Davis, New York Sun's world-girdling correspondent, came together at Victoria recently on Canadian Pacific liner Empress of Canada, the former on his way to Peking and the latter travelling with Mrs. Davis to Honolulu.

Success attending the inaugural cruise of S.S. Princess Alice last year to northern British Columbia and Alaska has led the British Columbia Coast Steamship service to provide another special Alaska cruise with the S.S. Princess Charlotte, leaving August 9 from Vancouver, it is announced by E. F. L. Sturges, general passenger agent, Canadian Pacific Railway.

Capital, Labor, the learned professions, diplomacy and business were all represented in the passenger list of the Canadian Pacific liner Empress of Australia on arrival at Quebec recently. The list included Sir Charles Gordon, president of the Bank of Montreal; Tom Moore, president of the Trades and Labor Congress of Canada; F. E. Meredith, K.C., Dr. Moser, consul-general for Czechoslovakia, and Colonel Hercule Barre, Canadian Government Trade Commissioner in Paris.

## Beautiful Things

Beautiful faces are those that wear—  
It matters little if dark or fair—  
Whole-souled honesty printed there.

Beautiful eyes are those that show.  
Like crystal panes where hearth-fires glow,  
Beautiful thoughts that burn below.

Beautiful hands are those that do  
Work that is earnest and brave and true,  
Moment by moment the long day through.

Beautiful feet are those that go  
On kindly mission to and fro,  
Down lowliest ways if God wills so.

Beautiful shoulders are those that bear  
Ceaseless burdens of homely care  
With patient grace and daily prayer.

Beautiful lives are those that bless—  
Silent rivers of happiness,  
Whose hidden fountains but few may guess.

Hon. Gordon S. Harrington, premier of Nova Scotia, accompanied by Mrs. Harrington, left Halifax recently for Montreal where they boarded S.S. Duchess of Bedford for a short holiday in the Old Country. During his absence, Hon. Percy C. Black will be acting premier of the province.

"It is not too much to say that any improvement in the revenues of the railroads will immediately make itself felt in all channels of trade and that the maintenance of railroad solvency will do more than any other domestic factor to restore strength to the nation's institutions," says an editorial in the Charleston, S. C., Post.

The "career open to merit" in railway affairs is well illustrated in the case of Charles E. Ewing, a railroader for 49 consecutive years, recently promoted president of the Reading Company. In 1883, at the age of 17, Ewing began his railroad career as a rodman in the employ of the Philadelphia & Reading Railway, now the Reading Company.

Beggie—I don't think anything of doing a hard day's work, Miss Sharpe.  
Miss Sharpe—I'm quite sure you don't, Mr. Bagg.

### Prizes Offered for Destruction of Pests

Alberta department of agriculture is again offering prizes to the individuals and school groups and gun clubs which have the greatest success in the wiping out of the gophers, crows, and magpies.

Points are given as follows: For crows and magpies for each egg 4 points; for each gopher tail 1 point.

For gun clubs and similar organizations there are six prizes, ranging from \$200 down to \$25. Individual prizes totaling \$670 are also being given, with \$75 as first and others ranging down to include the 159 competitors.

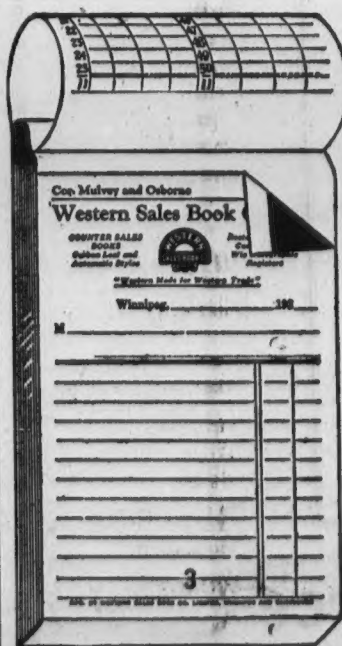

There are five prizes in the competitions for schools, the first being \$70 and down to \$10 for 5th. Individual competitors in this section are also given prizes totaling 2300 dollars with 75 dollars for the highest and down to 50c each to the 466th to 3000th.

For a copy of regulations apply to, Game Branch of Agriculture, Edmonton.

"He must be a religious man. He studies the prophets a great deal."

"Yes, but it's the profits that are mentioned along with losses, my friend."

### Things Are Looking Up

On Wednesday of this week, for the first time since our coming to Arrowwood, there were three trains through our city. The most pessimistic could not fail to see that conditions are on the mend.

### Weeds! Weeds!

Are you having any difficulty in turning these pests under. If you are it will mean another trip over your field to pull these weeds out—Why not equip your plows with JOINERS at a very nominal cost, save that extra trip across your field and at the same time do a perfect job of plowing.

If you are not familiar with the joiner, see a sample on display here.

Equip your car with Firestone Tires before you start on that holiday trip.

Cultivators, Disks, Disk Tillers and Spring Tooth Harrows for cultivating out those weeds, or any repairs that you may need for your implements. Place your order early so that we can have them here when you need them.

A bishop received the following from the vicar of a village in his diocese:

"My Lord: I regret to inform you of the death of my wife. Can you possibly send me a substitute for the week-end?"
